

Notwithstanding any other provision of this option to purchase, title, risk of loss, and beneficial interest in the honey, as specified in 7 CFR part 1434, shall remain with the producer until the buyer exercises this option to purchase the honey. This option to purchase shall expire, notwithstanding any action or inaction by either the producer or the buyer, at the earlier of: (1) The maturity of any CCC loan which is secured by such honey; (2) the date the CCC claims title to such honey; or (3) such other date as provided in this option."

§ 1434.7 Approved storage.

(a) Loans will be made only on honey in approved storage, which shall consist of a storage structure located on or off the farm that is determined by CCC to be under the control of the producer and affords safe storage for honey pledged as collateral for a loan. If the honey located in a farm storage structure is pledged as collateral that se-

cures more than one loan, the honey must be segregated so as to preserve the identity of the honey securing such loan. Honey securing a loan must also be segregated from any honey not pledged as collateral for a loan that is stored in the same structure.

(b) Producers may also obtain loans on honey packed in eligible containers and stored in facilities owned by third parties in which the honey of more than one person is stored if the honey that is to be pledged as collateral for a loan and that is stored identity preserved or is segregated from all other honey. Each container of the segregated quantity of honey shall be marked with the producer's name, loan number, and lot number so as to identify the honey from other honey stored in the structure.

§ 1434.8 Containers and drums.

(a)(1) The honey must be packed in plastic Intermediate Bulk Container (IBC) or metal containers of a capacity of not less than 5 gallons or greater than 70 gallons. The IBC container is a bulk container with a polyethylene inner bottle with a galvanized steel protective cage with a 275 and 330 gallon capacity and is reusable. The metal containers must meet the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, and regulations issued thereunder and must be generally fit for the purpose for which they are to be used;

(2) The 5-gallon containers must hold approximately 60 pounds of honey, and must be new, clean, sound, uncased, and free from appreciable dents and rust. The handle of each container must be firm and strong enough to permit carrying the filled container. The cover and can opening must not be damaged in any way that will prevent a tight seal. Cans that are punctured or have been punctured and resealed by soldering will not be acceptable; and

(3) The steel drums must be an open-end type and filled no closer than 2 inches from the top of the drums. Such drums must be new or must be used drums that have been reconditioned inside and outside. The steel drums must be clean, treated inside and outside to prevent rusting, fitted with gaskets that provide a tight seal and have an

inside coating suitable for honey storage.

(b) Honey shall not be eligible to be pledged as collateral for loans if such honey is stored in:

(1) 55-gallon steel drums having a tare weight less than 38 pounds, 30-gallon steel drums having a tare weight less than 26 pounds, or drums having removable liners of polyethylene or other materials;

(2) Bung-type drums;

(3) Bulk tanks;

(4) Plastic buckets and containers;

(5) Steel drums that are severely enough dented as to cause damage to their lining, improper seal, or stacking capabilities; and

(6) Rusted drums with corroded areas.

§ 1434.9 Determination of quantity.

The amount of a marketing assistance loan and loan deficiency payment shall be based on 100 percent of the net weight in pounds of such quantity certified by the producer and verified by the county office representative for honey on Form CCC-633 (Honey) that is eligible to be pledged as security for the loan or LDP Estimates of the quantity of honey shall be made on the basis of 12 pounds for each gallon of rated capacity of the container.

§ 1434.10 Application, availability, disbursement, and maturity.

(a) A producer must, unless otherwise authorized by CCC, request loans and loan deficiency payments at the appropriate FSA county office responsible for administering the program as provided under part 718 of this title. To receive loans and loan deficiency payments for honey, a producer shall execute a note and security agreement or loan deficiency payment application on or before March 31 of the year following the year in which the honey was extracted.

(b) A producer must request a loan at the county office of the county where the honey is stored if the honey is stored at the producer's farm. A producer who requests a loan on honey stored in eligible storage other than the producer's farm, may request loans at either the county office of the county where the storage facility is located

or at the county office of the county where the producer's main place of business is located. A CMA must request loans at the county office for the county in which the principal office of the CMA is located unless the State committee designates another county office. If the CMA has operations in two or more States, the CMA must file its loan applications at the county office for the county in which its principal office for each State is located.

(c) Loans will be made on the honey as declared and certified by the producer on Form CCC-633 (Honey), (Honey Loan Certification and Worksheet) at the time the honey is pledged as collateral for a loan. The producer is also required to declare and certify on Form CCC-633 (Honey) the class (table or nontable) and floral source of the honey at the time the honey is pledged as collateral for a loan.

(d) The request for a loan shall not be approved until all producers having an interest in the honey sign the note and security agreement and CCC approves such note and security agreement. The disbursement of loans will be made by county offices on behalf of CCC, for honey that:

(1) Has been extracted;

(2) Is in eligible storage; and

(3) Has not been blended or mixed with ineligible honey.

(e) Loans mature on demand but not later than the last day of the ninth calendar month following the month in which the note and security agreement was approved. When the final maturity date falls on a non-workday for county offices, CCC shall extend the final date to the next workday. Before the date determined in paragraph (a) of this section, a producer may re-offer as loan collateral any eligible honey that has been offered previously for a CCC loan and the loan has been repaid at principal plus interest only.

(f) If, after a loan is made, CCC determines that the producer or the honey collateral is not in compliance with any of the provisions of this part, the producer shall refund the total amount disbursed under loan and charges plus interest, including late payment interest as provided in part 1403 of this title.
